

GOVERNOR PATERSON WANTS YOU TO PAY A NEW TAX

RAISING THE PRICE OF THESE ITEMS IN YOUR GROCERY BASKET BY OVER 50%

The Governor wants to **raise the cost of** many of your favorite products by over 50%. He says his new tax on juice drinks, sports drinks, teas and sodas is all about health. But **taxes don't make people healthy**. Exercise and a balanced diet do that.

Hardworking families in New York are struggling to make ends meet. **We can't afford another tax increase now. Albany should reduce their out-of-control spending** – not add to our tax burden. New taxes on the middle class? Tell Albany that's no way to balance the budget.

WE CAN'T AFFORD IT AND IT WON'T WORK.

Go to NoBeverageTax.com or text **THIRSTY** to 99702 to stop the tax.
